DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on October 26, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent Number 6,647,347 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: regarding independent claims 1, 11, and 14, the prior art fails to teach or fairly suggest, in addition to the accompanying features of the claims, a data acquisition system and method and a time-of-flight mass spectrometer comprising an accumulator comprising two or more parallel accumulation paths and configured to accumulate corresponding data samples across a transient sequence through at least two different accumulation paths to provide a summation of said data samples of said different paths. Claims 2-10, 12-13, and 15-20 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
